<p>This Supplement in reference to the above mentioned case #11A09012, a Police Assistance, which was reported on September 3, 2011. This information below is in reference to a witness's statement at the scene on September 3, 2011.</p> <p>Contact was made with Mr. Laurel Williams who stated that Mr. Benta and he were present at 5 & 10 Shoys when the Christie Group came to inspect the wine that was kept on that property. Mr. Williams stated that the inspectors went into the room to inspect the wine and about 15 minutes after the inspectors left the room, he and Mr. Benta went into the room and felt a drastic temperature change. Mr. Williams stated that he saw the air conditioner unplugged from the wall. Mr. Williams concluded by saying that Mr. Benta plugged back in the air conditioner.</p> <p>My observations revealed that there were 27 sealed wooden cases that appeared to have wine in them. I also observed that the room was cool and that the thermostat read 61 degrees. I observed two (2) unplugged refrigerators that were stacked halfway with wine bottles in them. I also observed open cardboard boxes on the floor with wine bottles in them. I observed that the door to the room showed no indication of forced entry or foul play.</p> <p>I request this case be left open pending contact with the inspectors.</p>
